47) Query at para 28 of the note supra whether the Mining Companies (at K.G.F.) are entitled under their leases to give these lands to the British Military authorities. The D.C. of Kolar was asked to furnish particulars as to when the lands were handed over to the British Milita by whom & under what conditions. Much light is not thrown on this in the D.C's letter forwarding copy of letter from John Taylor & Sons' Committee. Five of the buildings are stated in the list to be Military buildings & four contains to be the property of the Mines. It is stated that the lands on which the buildings have been constructed have never been handed over, that the buildings were either erected by or with the Consent of the Mining Co., upon whose areas they are situated & there are no formal leases or documents of title in respect to these occupations. The understanding with the Military authorities being that the Mining Co will Continue to respect the tenure for so long as mining operations are being Conducted under the Mining lease

48) In the indentures executed by the Mining Co (draft of one of which is placed below) There is no prohibition against subletting.

under Sec 108 (2) of the Transfer of Property Act (which is also an equitable principle), a lessee has the right to sublet in the absence of any Contract to the Contrary. Art 27 of the Indenture of the Mining Co provides that the lessee will deliver to the lessor a copy of every underlease of the said premises or part thereof within 2 months of the date of the said underlease. This implies that the right of the lessees to sublet has not been taken away in the Contract. The Mining Co seems to be within their right in subletting to the Military authorities if they have done so. 491 Draft letter to the Residency re for Consideration.

The printed selections do not contain copies of the leases ~~existed~~ which existed before 1910. The standard forms printed therein however show that the old leases could not have contained any covenant against assignment. It ~~was~~ therefore ~~to be~~ follows that the action of the Mining Companies in allowing portions of the mining block to be occupied by ~~the~~ British Military Authorities cannot be said to be illegal or ultra vires. After all the understanding between the Military authorities & the Mining Companies is that the latter will respect the occupation only ~~of~~ so long as the Companies hold the leases. ~~However~~ However there are no formal underleases or other documents of title & therefore the occupation by the Military may be said to be merely permissive and not by virtue of any legal right or title.

1.	Near Ibalur Village, Bangalore Taluk.	445.26 acres.	For Military Rifle Range.	This area was recently handed over to the possession of the British Military authorities for locating the Rifle Ranges which were shifted from Hebbal. (3) The Mysore Government paid Rs.1,50,000 to the Military authorities to enable the latter to construct new ranges and provide all other facilities required for using the lands as Rifle Ranges. (4) In case the Rifle Ranges at Ibalur should cease to be used as such, the lands comprising them will revert to the Mysore Government and the latter will pay to the Government of India a sum of Rs.12,176-2-3, being the cost of acquisition paid by the Government of India in respect of a portion of the danger zone of the Hebbal area. In regard to the expression used in your letters, Viz., "when the lands on which the said buildings have been constructed were actually - handed over to the British Military Aurhorities", I am desired to repeat that this cannot be accepted as a correct description as (the lands - referred to as far as is known have never been "handed over".
